Gyro-Trac Names Vermeer Sales & Service as Dealer

Vermeer Sales & Service is now an authorized Gyro-Trac dealer serving Minnesota, North Dakota, South Dakota, and a portion of Wisconsin. on Yahoo!

Gyro-Trac manufactures efficient land-clearing equipment. The company is moving forward to create a network for land-management and land-clearing equipment across North America.

Gyro-Trac has a high production mulching machine. The company's products maximize engine and hydraulic horsepower and feature spiral cutting, plainer tooth and other cutting heads. Its products clear land quickly, inexpensively, and without disturbing soil structures, according to the manufacturer.

"We are very pleased to add Gyro-Trac to our product offering," said Skip Klinkhammer, vice president of material handling, Vermeer and RDO Equipment Co. "By adding one of the best land-clearing units made, Vermeer Sales & Service now offers the most complete product line of equipment solutions by any dealer in the Midwest. Vermeer Sales & Service can provide horizontal and tub grinders, chippers, stump cutters, mulching machines, trommel screens, and Sherrill Arborist equipment for our customers. In addition to the sale of the equipment, we have professional, knowledgeable service technicians, and we provide onsite training for complex, highly technical machines.

"We are happy to say we have reached our goal of being a total solution equipment provider for the tree industry."

Vermeer Sales & Service is a full-service equipment dealer specializing in the selling, leasing, training, and servicing of Vermeer directional boring machines, track trenchers (rock & dirt), rubber-tired trenchers, trench compactors, brush chippers, stump cutters, tub and horizontal grinders, vibratory plows, piercing tools and Arborist supplies.

Gyro-Trac's land clearing equipment clears land quickly, inexpensively and without disturbing soil structures. The company's single-purpose-built mulching machines allow users to turn trees and under brush into mulch in just minutes.
