

GT-10 light duty LEAN, GREEN, MULCHING MACHINE

Born in the Woods.

Grew Up in the Woods.

The Undisputed Tree Munching
Master of the Woods.

LEAN, because we get more productivity with less energy, power and weight than all of our competitors.

GREEN, because our low ground pressure disturbs far less soil, and the quality of our mulch slows down competing vegetation, maintains a higher moisture level in the soil, and accelerates natural decomposition, refertilizing impoverished soil.

You'll love our MULCHING MACHINE's comfortable and quiet cab. With enhanced forestry safety features, this lightweight, agile, yet powerful machine packs a powerhouse punch.

The GYRO-TRAC GT-10 is built upon a proven chassis with a Posi-Track drive system. Gyro-trac has brilliantly engineered this versatile, powerful and dependable tracked machine, creating the only single-purpose-built mulching machine in its class.

GT-10 VEHICLE FEATURES

- Best-of-class instant response hydrostatic drive
- Convenient dual Joystick Control
- Reliable 105 H.P. Caterpillar 3054T 4-cylinder turbo diesel engine
- NEW Comfortable, TILT-UP Single-Purpose Designed CAB
 - Cab Forward Layout w/360° Visibility, Optimized for Land Clearing
 - Comfortable Suspension Seating for Long Work Days
 - Quiet, Clean, Climate-Controlled Environment (AC & Heat)

- Lexan Safety Windshield, Operator Escape Hatch
- The Machine, Including the Cab, is Protected by a Forestry Safety Package That Meets all SAE Rollover and Fall-on Protection Systems (ROPS/FOPS) Requirements
- Weight with Cutter Head - 12,500 lbs (5682 kg)
- Ground Pressure with Cutter Head - 4.2 psi

TOMA-AX 500H CUTTER HEAD FEATURES

- Light weight, High-Speed (2450 RPM)
- Patented, Peak Performance Spiral Design - A GYRO-TRAC EXCLUSIVE
- Special, Swing-Tooth Design and Unique, Individual Tooth Mounting System is Safer, More Effective, and Offers Single-Tooth Replacement in Minutes, Not Hours Like Other Designs
- Efficient Bosch/Rexroth hydraulic work head power supply
- Cutting Width - 76 inches, Safety Chain Row on Rear
